Detailed Action

Response to Amendment

1. Applicant's remarks/arguments filed on 11/1/2005 regarding claims 1, 3, 4, 6 have been considered. Claims 1, 3, 4, 6 are currently pending and claims 2, 5 have been canceled by applicant.

EXAMINER'S STATEMENT OF REASONS FOR ALLOWANCE

2. The following is an examiner's statement of reasons for allowance:

The present application relates to providing a communication apparatus for performing asynchronous communication with a base station, including the unique functions of:

“a receiving device for receiving a down link signal, which is transmitted from the base station and in which a division signal is inserted for each of constant time intervals; wherein each of said constant time intervals is divided into a plurality of predetermined time intervals; and wherein said detecting device calculates a correlation between a signal correlated with the division signal and the received down link signal for each of the predetermined time intervals, and compares the calculated correlation with a predetermined threshold value for each of the predetermined time intervals.”

The closet prior art, Higuchi et al. (EP 0,825,737 A1), discloses a long code synchronized phase detector for receiving a spread modulation input signal in which a long code is inserted for each of long code period, and that the mobile station detects the correlation between the received signal and a code obtained by multiplying the long code and short code for each of the long code

Art Unit: 2664

period in order to identify the types of the received long code and the maximum correlation value of the long code. However, Higuchi fails to anticipate or render obvious the above quoted limitations of the present application. This renders the claims allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
